Voltage: 110V-120V/50Hz; 220V-240V/50Hz

- Unique innovation design, compact and easy to use
- Easy one-step programming via digital LED display
- High quality compressor of durability and energy efficiency
- Titanium heat exchanger, durable and corrosion resistant
- Super Quiet
- Suitable for freshwater and saltwater

Voltage: 110V-120V/50Hz; 220V-240V/50Hz								

- Monitor the most vital ammonia and nitrites level.
- Test 8 water parameter, provide good water quality
- Quick, simple and accurate reading
Wide application, be used in fresh
- water & saltwater aquariums and ponds
- Convenient, test 8 water parameters simultaneously
