HC006 Aquarium Glue Instant Adhesive for Waterscape

- **Waterproof**
- **Low odor**
- **Strong adhesion**
- **Fast drying**

NET:50g

ATTENTION

- Avoid contact with the skin and eyes. If skin adhesion occurs, do not attempt to remove the adhesive directly from the skin. Use warm water or acetone to remove the glue and seek medical attention immediately.
- Store this product in a cool and dry place, preferably in the refrigerator's freezer (5-10 °C).
- Use this product in a well-ventilated place.
- Keep this product out of the reach of children.

METHOD OF USE

- Pierce the opening of the glue with a needle.
- Apply a small amount of glue thinly and evenly to the surfaces to be joined, then press the two surfaces firmly together.
- After use, wipe off any glue residue from the opening with paper or cloth and quickly close the lid again.
- Do not use this product under water.

Production date can be found at the bottom of the bottle
