# HG197 USER MANUAL

## hygger Armour Aquarium Magnetic Brush

hygger Armour Aquarium Magnetic Brush is perfect to clean aquarium tanks without wetting your hands. Please read this manual carefully before using and follow strictly in accordance with the manual .

 **WARNING:** Don't use stainless steel blade for acrylic.

# 1. PRODUCT FEATURES

- Super Strong Magnetism:** This hygger aquarium magnet cleaner is made of expensive rare earth magnets, which are strong enough to stick on the fish tank firmly.
- Multifunctional:** The cleaner can be used as a scrubber or scraper. The black scrubber pad is covered with a hooked Velcro-like fabric that scrubs soft algae and also protects the tank from scratches. Stainless steel blades and plastic blades can scrape coral algae and more.
- Special Blade:** The stainless steel blade has a rounded working surface design with no sharp edges. It is therefore safe for both the tank and the user.
- Practical Look:** This ABS wood-like handle has a natural look. The ergonomically designed curved handle is easy to grip.
- Floating Design:** After removing the wooden handle, the black scrub pad will bounce and float on the surface of the aquarium, you can remove it without getting your hands wet or disturbing the fish or aquatic plants.

# 2. METHOD OF APPLICATION

The two blades are interchangeable and easy to change. Removing the blades requires a bit of force: push them out with your thumbs on either side of the blade, but be careful of finger injuries when installing them.

# 3. ATTENTIONS:

- ✓ Please read this user manual carefully before using and follow strictly in accordance with the manual.
- ✓ Due to the sharp edge of the blade, install and remove the blade carefully and store it properly.
- ✓ Use this powerful magnet with care, do not put your fingers between the two pads, simply rotate 1/4 turn to separate cleaner.
- ✓ Please keep the magnet cleaner away from children, due to strong magnetism.
- ✓ Please don't wear pacemakers and implanted heart defibrillators devices when you use the magnet cleaner.
- ✓ Please rotate one of the pads by 90 degree to separate the two pads, when they are together.
- ✓ Please make sure magnet cleaner stay away from high temperature that may cause demagnetization.
- ✓ Please keep a distance with all magnet-prone items, scissor, for example.
